1. Chemical Product and Company Identification

Product Name: Monkey Farts  
Product Number: 503403  
Product Use: Fragrance for Consumer product  
Manufacturer: Wellington Fragrance  
33306 Glendale St.  
Livonia, MI 48150 USA  
734-261-5531 Fax 734-261-5571  
www.wellingtonfragrance.com  

Emergency Telephone Number(s):  
(800) 255-3924 Domestic USA, Canada, Puerto Rico, and US Virgin Islands  
(813) 248-0585 International

2. Hazards Identification

This mixture has not been tested as a whole. The effects, listed below, are based on evaluation of individual components in accordance with the provisions of 1910.1200 of title 29 of the U.S. Code of Federal Regulations.

Emergency Overview of OSHA Hazards

Carcinogenicity: This mixture contains ingredients identified as carcinogens, at 0.1% or greater, by the following:  
None [X]  ACGIH [ ]  IARC [ ]  NTP [ ]  OSHA [ ]

3. Composition/Information on Ingredients

Chemical Identification: Perfumery Compound (Mixture)  
INCI Name: Fragrance

Fragrance Compound: a multi component mixture of fragrance ingredients. The specific chemical identities of the ingredients not listed herein are considered by Wellington Fragrance to be Trade Secrets and are withheld in accordance with the provisions of 1910.1200 of title 29 of the U.S. Code of Federal Regulations.  
This product is a complex mixture of fragrance ingredients, which contains among others the following substance(s), presenting a health or environmental hazard within the meaning of OSHA Hazard Communication Standard 29CFR1910.1200 (HCS), or having an occupational Exposure Limit:

Total Hydrocarbon Content (% w/w) = 2.41

4. First Aid Measures

Inhalation: Remove from exposure site to fresh air and keep at rest. Obtain medical advice.

Eye Exposure: Flush immediately with water for at least 15 minutes. Contact physician if symptoms persist.

Skin Exposure: Remove contaminated clothes. Wash thoroughly with water (and soap). Contact physician if symptoms persist.

Ingestion: Rinse mouth with water and obtain medical advice.

Others: Take risk and safety phrases (section 15) into account.

5. Fire-Fighting measures

Flash Point 164 F (73.33 C)

Flammability Class IIIA Combustible Liquid

Extinguishing Media: Carbon dioxide, dry chemical, foam.

Do not use a direct water jet on burning material.

Special Fire Fighting Procedures: Wear NIOSH approved self-contained breathing apparatus and full protective clothing when fighting fires involving chemicals. Use water spray to cool containers exposed to fire.

Unusual Fire and Explosion Hazards: None Known to Wellington Fragrance

6. Accidental Release Measures

Personal precautions: Avoid inhalation and contact with skin and eyes. A self-contained breathing apparatus is recommended in case of a major spill.

Spillage: Clean up spillage promptly. Remove ignition sources. Provide adequate ventilation. Avoid excessive inhalation of vapors. Gross spillages should be contained by use of sand or inert powder and disposed of according to the local regulations.

Environmental Precautions: Keep away from drains, soil, and surface and groundwater.

7. Handling and Storage

Handling: Apply according to good manufacturing and industrial hygiene practices with proper ventilation. Do not drink, eat or smoke while handling. Respect good personal hygiene.

Storage: Store in a cool, dry and ventilated area away from heat sources and protected from light in tightly closed original container. Avoid plastic and uncoated metal container. Keep air contact to a minimum.

ENGINEERING MEASURES
Closed Systems: Wherever possible, use closed systems to transfer fragrances.
Isolation: If appropriate, isolate mixing rooms and other areas where fragrances are openly handled and maintain these areas under negative air pressure relative to the rest of the plant.
Ventilation: Use local exhaust ventilation meeting ACGIH design criteria around tanks and other sources of potential exposures, including places where fragrances are openly weighed or measured, as well as general dilution ventilation of the work area to eliminate or reduce possible worker exposures.

PERSONAL PROTECTIVE EQUIPMENT
Respiratory Protection: Avoid excessive inhalation of concentrated vapors. Apply local ventilation where appropriate.
Eye Protection: Use goggles.
Skin Protection: Avoid Skin contact. Use chemically resistant gloves as needed.

Soluble in: Oil

10. Stability and Reactivity
Reactivity: Presents no significant reactivity hazard, by itself or in contact with water. Avoid contact with strong acids, alkali or oxidizing agents.
Incompatibility: Avoid contact with strong acids, alkali or oxidizing agents.
Decomposition: Carbon monoxide and unidentified organic compounds may be formed during combustion.

11. Toxicological Information
Based on the ingredients in this mixture and their concentrations in accordance with the provisions of 1910.1200 of title 29 of the U.S. Code of Federal Regulations:

Acute Oral Toxicity (Rat) Overall (Calculated Estimate) LD50: 2468.83 mg/Kg

2 Harmful if swallowed

4940-11-8 Ethyl maltol (LD50 = 1220 mg/Kg)
11. Toxicological Information

**Acute Dermal Toxicity (Rabbit) Overall (Calculated Estimate)** LD50: 3034.48 mg/Kg
9 Harmful if absorbed through the skin.
123-68-2 Allyl hexanoate (Allyl caproate) (LD50 = 300 mg/Kg)

**Acute Inhalation Toxicity (Rat) Overall LC50: Undetermined**
21 Harmful if inhaled.
123-92-2 Isoamyl acetate (Isopentyl acetate)
25 Inhalation at high levels may cause: tremors, labored breathing, hypothermia, lethargy, ataxia.
140-11-4 Benzyl acetate (LC50 = >20 mg/L/4hr)

**Skin irritation**
12 Causes skin irritation.
8008-57-9 Citrus aurantium dulcis (Orange) oil

**Eye irritation**
16 Causes eye irritation.
103-23-1 Hexanedioic acid, bis(2-ethylhexyl) ester

**Sensitization & Allergic Reactions**
31 May cause allergic skin reaction.
121-33-5 Vanillin
140-11-4 Benzyl acetate
8008-57-9 Citrus aurantium dulcis (Orange) oil

**Carcinogenicity or Tumorigenicity**
None

**Genotoxicity**
None

**Reproductive/Developmental**
39 Causes reproductive/developmental toxicity in animals.
140-11-4 Benzyl acetate

**Target Organ Effects**
28 Prolonged or repeated Dermal Exposure may cause damage to: kidneys, skin
120-51-4 Benzyl Benzoate kidneys, skin
26 Prolonged or repeated ingestion may cause damage to: kidneys, stomach, brain, tongue, mucous membranes, musculo-skeletal system.
140-11-4 Benzyl acetate kidneys, stomach, brain, tongue, mucous membranes, musculo-skeletal system

12. Ecological Information

Avoid contamination of soil, ground and surface water. While no specific environmental toxicity or related data is available, fragrance compositions are not expected to accumulate in the environment and environmental problems are not expected under normal conditions of use.

13. Disposal Conditions

Dispose of according to local regulations. Avoid disposing into drainage systems and into the environment.

## 15. Regulatory Information

The components of this fragrance product are in compliance, either listed or exempt, with the U.S. EPA Toxic Substances Control Act (TSCA) Inventory of Chemical Substances: Undetermined

99.80% of the components of this fragrance product are found on the Canadian DSL.

The following ingredient(s) are NOT found on the DSL, status as noted:
